## COMMERCIAL

**Understanding the brand is the first and most important step in our design journey with the client. From that point onwards it is our responsibility to express the brand in every aspect of the design.**

Jossi Design works closely with graphic designers and signage specialists. Our focus is on creating a holistic interior that will emphasize the brand and grab the attention of the entity's target market.

## Creating the dream

### HOSPITALITY

We believe that paying close attention to the smallest details achieves the greatest visual impact. It is why so many hospitality providers have partnered with the Jossi Design team to make their design dreams a reality.

In order to create an effortless high-end result we source furniture and fabrics both locally and internationally for the perfect ambience. We love to design bespoke pieces of furniture, which also allows us to create finished interiors that are unique to your space alone, exuding a level of sophistication that exceeds all expectation.

## RESIDENTIAL

We understand that our client's love their homes. It's why we take as much pride in them as they do. Years of industry experience have allowed us to generate a vast network, which allows us to assist and guide our clients through the often difficult building process.
